Golden Valley Health Centers
is a non-profit organization

ABOUT US

Golden Valley Health Centers is a community based healthcare organization. Our team of doctors, dentists, behavioral health counselors, and other medical professionals are committed to providing access to high-quality health care for all, serving with dignity, respect and compassion.

Golden Valley Health Centers is staffed with board-certified physicians and licensed professionals who are here to care for you and your entire family! From newborns to seniors - and everyone in between - we love caring for our patients!

PAYMENT INFORMATION

We accept Medi-Cal, Medicare, Covered California, and most private health insurances. If you do not have insurance or do not have coverage for certain services under your current plan, you may qualify for reduced fees under our sliding fee discount program. Our Patient Service Representatives can help you qualify for low cost medical and dental care. You will need to bring your ID and proof of income (such as your last tax return or unemployment documentation).

HEALTHY PREGNANCY

We know that a healthy pregnancy is the start to a healthy life, which is why we offer the Comprehensive Perinatal Services Program (CPSP). This program guides expecting mothers through pregnancy with education about breastfeeding, nutrition, and immunizations. If you are pregnant or planning to become pregnant, please ask our staff to see a CPSP case manager.

PATIENT-CENTERED CARE

Golden Valley Health Centers is proud to be a Primary Care Medical Home (PCMH).

What is a PCMH?

You have a team of people helping you be as healthy as you can be. This team includes:

- Your Provider
- Medical Assistant
- Nurse
- Health Educator
- Behavioral Health Provider
- Dentist

You are an important part of your healthcare team. It's up to you to determine:

- Who cares for you
- When and where you get care
- What medications and treatment you receive

As a patient of Golden Valley Health Centers, you will have access to many different services based on your healthcare needs. You will be asked to pick a Primary Care Provider (PCP) to partner with you on your health. We offer many services to help you live a happy and healthy life. This includes counseling and health education to support you in managing chronic diseases like diabetes, hypertension, and obesity.

No individual is denied service on the basis of race, religion, ethnicity, economic status, age, sex, sexual orientation, or disability. We offer free interpreter services at our health centers.

HIGH-QUALITY HEALTH CARE FOR ALL

URGENT CARE SERVICES

We encourage our patients to see their primary care provider, but when your provider is not available or you need to be seen urgently, walk into one of our Urgent Care locations listed on the back or call us for a Virtual Urgent Care appointment. Patients will be seen on a first come, first served basis.

For After Hours Emergencies, call 911

CENTRAL VALLEY PACE

Central Valley PACE is dedicated to empowering older adults. We work closely with eligible seniors, their families, and the community to enhance health, dignity, quality of life, and independence. Together, we strive to ensure our participants thrive within their communities.

For more information about PACE and to see a list of our locations visit: **cvpace.org**

Merced Center:

- 727 W Childs Ave, Merced, CA 95341

Modesto Center:

- 2401 E Orangeburg Ave., Ste 330 Modesto, CA 95305

MYCHART

We encourage our patients to take charge of their health and stay connected with their mobile device using MyChart! This free service allows you to access and manage your personalized health records and communicate through a secure two-way messaging system with your primary care team.
